PACE-Net Pacific Europe NETWORK for Science and Technology

PACE-Net is a network, which will establish a bi-regional dialogue on science and technology (S&T) research for development between the Pacific region and Europe.

PACE-Net mission

- PACE-Net will set up a dialogue for bringing together the relevant S&T experts and stakeholders (from Europe and Pacific Area) to establish priority research areas for EU-Pacific cooperation.
- PACE-Net will seek to increase the cooperation between the research organizations and universities in the Pacific Area.

PACE-Net opportunities for researchers

- Information on FP7 and specific thematic areas of mutual interest to Pacific and Europe.
- Participation in the thematic events, trainings, infodays aimed to identify the research cooperation opportunities between Pacific and Europe.
- Contribution to the scientific discussion through bi-regional Dialogue Platform Conferences.
- Newsletter with relevant information on collaboration opportunities between Pacific and Europe.
